ENVIRONMENTAL & ANCILLARY SERVICES

Radon Gas Measurement

The USEPA has determined that radon gas is a radioactive cancer producing gas linked to lung cancer. Our NJ State Certified Radon Measurement Technicians can conveniently conduct your radon test during your home inspection.

Wood Destroying Insect

As NJ State Licensed Professionals in the field of Wood Destroying Insect Inspections, our inspectors will conduct a visual inspection of the exterior and interior of the readily accessible areas of the structure. Our Inspector's level of experience will enable them to identify an infestation and recommend the best course of action needed.

Septic System

Pinnacle Inspection Services LLC can conveniently schedule your septic inspection with an independent Qualified Professional Septic System Inspector. Our referral will provide you with a highly trained Septic Inspector with over 25 years of experience in inspecting, servicing, repairing and maintaining septic systems. Your Septic Inspector will perform the septic inspection and advise you on the proper care and maintenance techniques needed to keep your septic system healthy. Your Inspector will prepare a written report that will be included with your home inspection report.

Water Analysis

Pinnacle Inspection Services offers a vast variety of water testing packages designed to meet all of your testing needs.

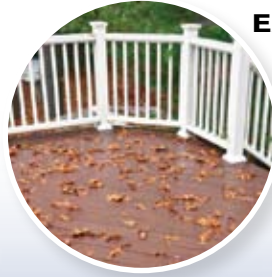

INSPECTION ELEMENTS

Home Inspection

A professional home inspection by Pinnacle Inspection Services will provide you with the knowledge needed to make the important decisions when buying, selling or maintaining a home. As a prospective buyer, knowing the conditions of the home prior to your purchase will allow you to feel confident in the decision making process during your purchase. Selling a home has never been easier. Our inspection services will give you a marketing advantage necessary to identify concerns that could delay the sale of your home. Our inspector's experience, technical knowledge and recommendations will help accelerate the sale of your home. Our services are complemented with the latest home maintenance recommendations enabling you to have a better chance of protecting your investment, allowing you to have pride of ownership.

Experienced Staff

Each of our inspectors have over a decade of home inspection and construction experience coupled with extensive technical knowledge and training. As Professional Licensed New Jersey State Home Inspectors, our inspectors follow the country's most stringent guidelines in accordance with the "Standards Of Practice" established by The New Jersey State Home Inspection Advisory Committee.

The Report

Your inspector will prepare a comprehensive, educational written report outlining the conditions observed during the on-site inspection. Reports include detailed descriptions of the conditions of the property, pictures of deficiencies, complemented with recommendations for the best course of action needed. Reports are emailed or faxed to you, your lawyer and realtor within 24 hours after the inspection.
